

Our young London

ROU**T**EMAS**T**ERS

Young people from the STEPS Ahead course in Woking spent a day orienteering in London. The Young People worked together to decipher clues that led them on a scenic walk round some of London's most famous landmarks. The trip built teamwork, map-reading and communication skills and everyone enjoyed a fantastic day out!

The STEPS Ahead programme helps young people aged over 16, to improve their skills and their confidence, so they can move into a job, into training or to find a college place.
